

INO eko 5 ACID NEUTRALIZER

INO-EK5-4

VALUE ADDED

- . Biodegradable as per OECD test 301D .
- . CFIA Approved.
- . Certified Ecologo.
- . Meets all LEED standards.
- . Non-corrosive and non-toxic.
- . Manufactured from renewable resources.
- . Hypoallergenic.
- . Contains no NPE/APE.
- . Do not mix with products containing chlorine or bleach.
- . Neutralizing action leaves no residue.
- . Effectively removes coffee and tea stains on floors.
- . Contains citric acid, a mild acid capable of neutralizing, cleaning and removing alkaline residues.

APPLICATIONS

- . Residus from ice melting salts, rock salts
- . Residus from slush, coffee/tea stains

DILUTION RATE

- . Neutralize stripper: 1:120
- . Calcium: 1:60

This ecological acid neutralizer removes soils and films from winter conditions. When used on a daily basis, it cleans floors and removes residues from ice melting salts, rock salts, slush and water films, coffee and tea stains, etc... The product contains citric acid, which is a mild acid capable of performing these functions without harsh free acids normally used to remove alkalis. With its ecological certification, this INO eko product is the logical choice for Health and Safety and is also preferable for the environment.

SPECIFICATIONS

Color	Colorless
Format(s)	4 x 4L
Odour/perfume/fragrance	Citrus
pH	2.5
VOC	0.7-0.9%
