

Ino-bio 6

ODOUR CONTROLLER FOR WASTE CONTAINERS

INO-BI6 378
INO-BI6-20

Ino-Bio 6 is really effective to eliminate odors that come from organic matters. It is used in trash compactors, garbage bins, garbage trucks and any other place where elimination of bad odors is necessary.

Directions

AUTOMATIC DOSING (GARBAGE COMPACTORS):

1. Install an automatic dosing system with **Ino-bio 6** and program according to periods of activities when the garbage is generated.
2. Direct the spray nozzles to the garbage surface to be treated (consult your **Ino-bio** representative for more information on the system and dosage). This system eliminates odors inside the garbage compactor. Make sure outside and surroundings of the compactor are also kept clean.

MANUAL USE :

1. Clean the surface if necessary.
2. Spray **Ino-bio 6** using a spray bottle or a garden pump (for larger surfaces), directly on odor emitting surfaces.
3. Repeat treatment with **Ino-bio 6**, as needed.

Benefits

- Safe for users' health
- Safe for the environment
- Does not damage surfaces
- Hypoallergenic
- No toxic vapor
- Continuous action
- Completely biodegradable
- Neutral pH
- Certified Ecologo
- Made in Canada
