

# INO SOLUTIONS

VERSUS THE COMPETITION

WHY CHOOSING  
**INO SOLUTIONS HAND SOAPS?**

Best value  
on the market.

## INO SOLUTIONS

vs.

## The Competition

- Top Dispensing.  
User sees soap being dispensed, meaning fewer pushes and less waste.
- No leak guarantee due to top valve placement.
- Accepts foam & liquid soaps:
- ADA\* push compliant.  
\*Americans with Disabilities Act
- Large view window.
- Available in black, gray and shortly in white.
- Reduced packaging.  
- Uses 50% less plastic than hard cartridges.
- Spring to dispense product is in the bag unit.  
It is replaced with each refill.

- Bottom Dispensing.  
User unable to see soap, meaning 2 in 10 people will push dispenser multiple times.
- More leak due to bottom valve placement.
- No product identification.  
User does not know if product is hand soap, hand sanitizer, etc.
- Cartridge manipulation.  
Top of cartridge can be cut open to accept bulk fill product and create cross contamination.
- Spring to dispense product is attached to the dispenser and can wear out.

## WHY CHOOSING INO SOLUTIONS HAND SOAPS?

- The foaming soap generated has 20 times the volume of traditional soap. Therefore, the user has the perception of having more soap in his hands.
- The foaming soap has no contact with the dispenser. Cross contamination is reduced.
- The cartridges are 100% recyclable.  
You got the opportunity to go green by choosing a foaming soap certified as an ecological product that contains no allergen.
- The foaming soap minimizes water wastage because it is easy to rinse. Using a foaming soap can reduce up to 50% of waste and water usage.

Best value  
on the market.
